## CSH-4 DMZ & the 3rd tunnel Tour (1 Day)

Korea is the only divided country in the world. Panmunjom is a joint security area of 800m east-west and 400m north-south, which was established on the military demarcation line of the headquarters area of the Military Armistice Commission in October 1963 in order to smoothly run the Military Armistice Commission.

Panmunjeom is also a region where various inter-Korean talks were held between the two Koreas, starting with the preliminary contact between the two Koreas in 1971. All Koreans are looking forward to the opening of such talks in the future, and that this will become a channel for exchange and cooperation between the two Koreas and a place of harmony.

DMZ is an abbreviation for the Demilitarized Zone on the Korean Peninsula that separates North and South Korea. The DMZ is a demilitarized zone 250 km long and 4 km wide along the Military Demarcation Line between the Republic of Korea and the Democratic People's Republic of Korea.

More than 1 million troops of the Democratic People's Republic of Korea are deployed here.
